

## Tire Chips

For Civil Engineering

- Roadbeds, Leachate Cells, etc.

## Mulch

For Landscaping & Playgrounds

## Crumb

- Infill for Sports Surfaces
- Mix with binder for Pour-in-Place Sidewalks, Patios, Walkways, etc.
- Mix with Asphalt Cement for Roads & Paths

## MOULDED PRODUCTS

Located at our facility on Dublin Ave. is our Moulding Plant where we blend our fine crumb with a Binder, to make a variety of moulded products, such as...

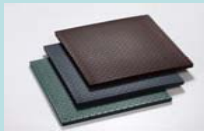

### Rubber Matting

in various thickness of standard mats for numerous applications

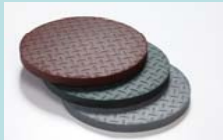

- Exercise Facilities
- Ice Hockey Arenas
- Fatigue Mats
- Truck Bed Liners
- Animal Transport
- ETC., ETC.

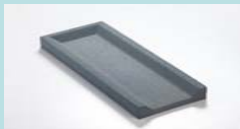

### Sidewalk Blocks

### Stepping Stones

### Splash Pads

## SPECIALTY PRODUCTS

### Traffic Control.....

### Blast Mats.....

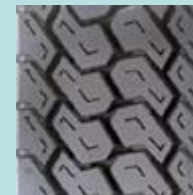

[www.bestblastingmats.ca](http://www.bestblastingmats.ca)

Heaviest in the industry from Semi-Truck Tires using Steel Cable, Forged Steel Clamps and Lifting Rings

### Retreaded Tires.....

[www.kroytire.ca](http://www.kroytire.ca)

Two "R's".....

We **RE**-use the walls & **RE**-cycle the old treads

....it's green, safe and economical

## WHAT DOES RTR DO?....

### Clean-up.....

We collect over a million tires annually from throughout the Province. Watch for our 'cages' in your area!

### Transport.....

We bring these tires back to our plant at 1450 Dublin Ave. in Winnipeg and begin the process of converting the waste material into useful products.

### Process....

- Remove all Tire Wire & Fibre
- Granulate Rubber into Specific Sizes for Different Applications
- Sold as TDA (Tire Derived Aggregate), Mulch or Crumb
- Convert Crumb Rubber into Moulded Products
